

iTec at Pattengill

iTec is a place for learning, sharing and expressing ourselves creatively.

Everyone at iTec is a creator with good ideas.

We are here to share and respect each other's ideas, which means listening carefully and responding kindly. Every day we do this, we will work better and have more fun.

Specifically, the mentors will respect and listen to what the students have to say, and students will respect and listen to the mentors.

I will respect my classmates and mentors each day I come to iTec.
